# Engineering Training

The tough climate that manufacturing faces has served to place added emphasis on the need to boost productivity and competitiveness. Evidence shows that appropriate staff training leads to improvements in productivity, a lower cost of manufacturing, increased competitiveness and reduced downtime.

Industry bodies have developed Engineering Apprenticeships offering employees the opportunity to enhance their career through a combination of training and assessment.

## Engineering Courses

Business Improvement Techniques  
Electrical / Electronic Engineering  
Engineering Maintenance  
Engineering Technical Support  
Fabrication & Welding Engineering

Installation & Commissioning  
Marine Awards  
Mechanical Manufacturing Engineering  
Performing Engineering Operations  
Performing Manufacturing Operations
